

# HLTAID006 Advanced First Aid

## Course Delivery

The course is delivered via our web-based on-line learning in conjunction with face-to-face training sessions in the field, a flexible blended learning environment.

The course content focuses on key skills that develop your knowledge for application of these skills and should be contextualised as required to address specific industry, enterprise or workplace requirements and to address specific risks and hazards and associated injuries

The face-to-face training and assessment is conducted in various locations throughout Australia and is based upon demand.

The activity calendar is regularly updated, (every 3 months) to reflect current enrolments. The calendar is on-line allowing students to view and select their own training/ assessment sessions within their course time frame.

## Course Overview

This Advanced First Aid Course deals with the skills and knowledge required for an Advanced First Aid response, including management of the incident and other first aiders, until the arrival of medical or other assistance. These skills and knowledge may be applied in a range of situations including community, school and workplace settings

## Course Duration

 maximum timeframe 3 months (NB: could be completed earlier)

## Entry Requirements

- Age 16 or over
- It is desirable that participants have the physical attributes to participate in adventurous physical activities
- Participants are responsible for their own travel arrangements and any associated costs to and from face-to-face training and assessment sessions
- Access to internet for on-line component of the course

## Enrolment requirements

This course has the following enrolment requirements:-

- \* Have access to a fully- functional computer/ smart device loaded with a web-browser (e.g. internet explorer, firefox, puffin) and appropriate software applications to read PDF files (e.g. Adobe), produce documents (e.g. Microsoft word etc)
- \* Have access to a company/ smart device with reliable Internet access (ability to download and upload documentation from/ to the College's online learning server)
- \* Have current valid email account for online learning and assessment communication and support

## Commencement of subject or course

A subject or course is deemed to have started if the "start of study date" has passed and the delivery of the course has commenced.

On-line delivery is said to have commenced if the course is open in the on-line environment for the individual student, this is automatic once appropriate fees have been paid.

### For Individuals

**We GUARANTEE that if you ENROL we will RUN YOUR SELECTED COURSE- even if you are the ONLY PARTICIPANT!**

Note:

If you are the only participant, Practical training will be in the Sydney region.

All other components are completed on-line.

Enrolment is required before you can book any of the training/ assessment dates

### Provide First Aid Practical Assessment

#### E-Learning (web-based online component)

Our pre-course theory component is completed via our online learning system and consists of:

- Comprehensive and engaging learning guide
- Multiple choice quizzes and exams
- Short answer workbook

Generally, as a guide, the pre-course online component takes approximately 2-4 hours to complete, but this can vary from person to person.

The pre-course work **MUST** be completed prior to attendance at the practical session

Unit of Competency

HLTAID006 Advanced First Aid

Note: CPR is renewable every 12 months to keep your "Advanced First Aid" current- the Advanced First Aid is renewable every 3 years - This is a requirement outlined by Safe Work Australia

NB: All the units of competency are assessed holistically in conjunction with the practical assessment component of the course, and the E-learning component.
