

# SISSS00064 Kayaking Guide Flat Water

## Course Delivery

The course is delivered via our web-based on-line learning in conjunction with face-to-face training sessions in the field, a flexible blended learning environment.

The course content focuses on key skills that develop your knowledge so that you can successfully plan and deliver an outdoor recreation activity. This may include developing skills in risk management, navigation, weather interpretation, environment factors, health and safety, emergency response and overall planning skills in a wide range of work environments.

These are all completed in the context of your selected activities and the online theory component of all courses

The face-to-face training and assessment is conducted in various locations throughout Australia and is based upon demand. The activity calendar is regularly updated, (every 3 months) to reflect current enrolments. The calendar is on-line allowing students to view and select their own training/assessment sessions within their course time frame.

## Course Overview

## Course Duration

 maximum timeframe 3 months (NB: could be completed earlier)
